## Electromagnetic Radiation 电磁辐射

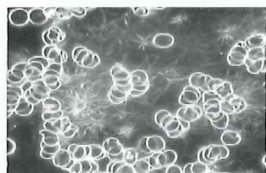

We are subject to radiation exposure due to technologies advancement such as increase usage of mobile phones, tablet, high-voltage transmission tower, microwave oven, hair dryer and etc.

电磁波辐射危害所造成的环境污染已经侵入在我们每天的生活当中。它主要来自手机，平板电脑，高压输电线，微波炉和吹风筒等等。

## Blood Circulation 血液循环

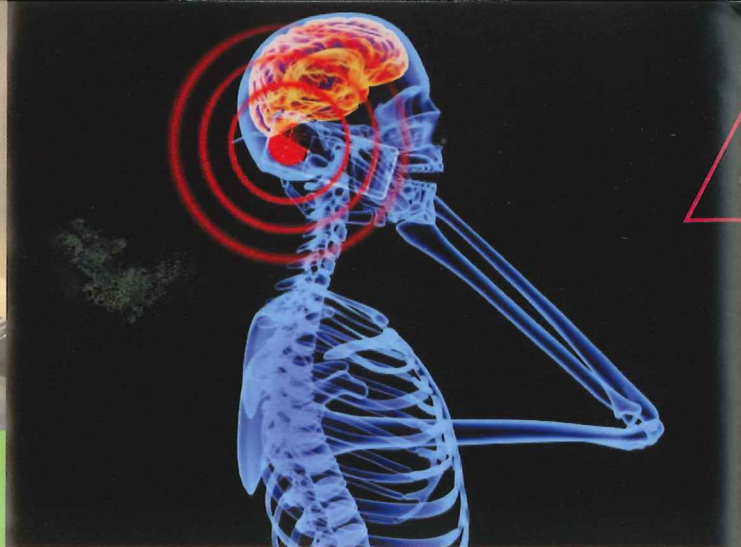

Live blood taken from a healthy person  
健康的人的血液

Live blood taken after using cellphone for 10 minutes and laptop for 70 minutes, totally same as people with blood cancer.

使用了10分钟电话和70分钟电脑的血液和得到癌症的血液完全一样。

Most of the radiant energy will be absorbed by the brain and skin lead to increase body temperature and cancer risk after making 15 minutes of phone call

- World Health Organization
